

minimal windows® **pivot**

The exclusive pivoting door

This highlight of the minimal windows® product range enables an additional opening variant in the almost frameless design. minimal windows® **pivot** is an inwardly or outwardly opening pivoted door leaf. The awe-inspiring door construction is available in very large sizes and gives your house an impressive look.

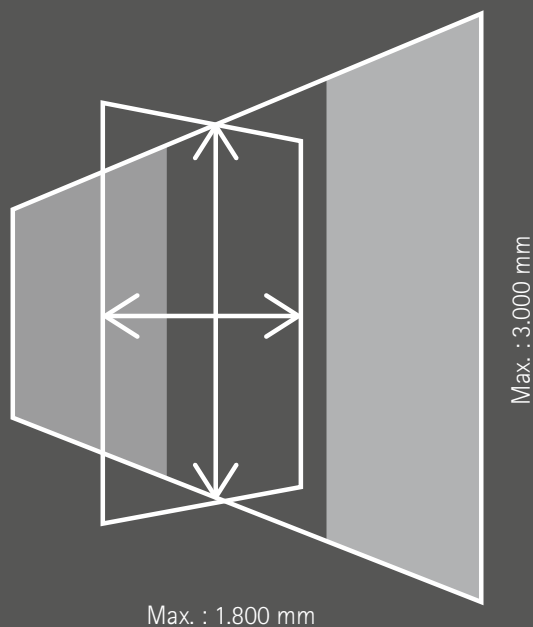

minimal windows® pivot

Where installation space is tight, the specially developed, high-precision rotary leaf hardware allows many different adjustment options for positioning the rotary leaf axis. The exclusive door bearing enables even large and heavy door

constructions to be moved without effort. The noble pivoted door gives the upmarket entrance area a new focal point and is the elegant solution for large doors in architecturally sophisticated living spaces.

TECHNICAL CHARACTERISTICS

- Max. leaf weight: 250 kg
- Distance rotary leaf axis <> stop:
From 150 mm to 1/2 leaf width
- Locking in 90° open position: yes
- Optional door closer at top: yes
- Air permeability: up to Class 4 according to EN 12207
- Water tightness class: up to Class 6A according to EN 12208
